TAINERS.**

**CONTAINER
FOR *TO GO*
CONTAINERS**

01

Find a **box** that can hold things to take along with you, for when you take food to go.

02

Cut the top off the box an inch or two above the height of the tallest item.

03

Cut off the side flaps so that only the front and back flaps remain.

04

Fold the top flaps together and **cut** them off at the fold.

05

Use the leftover pieces to **divide the space** in the box.

06

Cut a hole on both the sides and tie a string through them to make a **handle**.

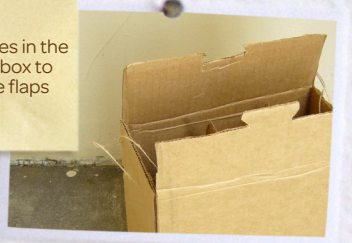

07

Cut notches in the top of the box to **fasten** the flaps together.

08

Cut out and attach the **label**.
