

ways to wasteless #17:

Spray paint **stencils** about consumption.

Each page of this pdf has a spray paint stencil that you can cut out and put up somewhere, to remind people to **consume less**.

Print out the pages and cut out the individual letters with an xacto knife to make the stencil. (You will probably only be able to use it one or two times, if you use regular computer paper).

Email photos and description of where you put the stencils to:
